

# Atlas Copco Portable air compressors

## XAS 185 JDU7

### **New, modern design**

- Galvanneal enclosure to prevent rust
- Central point drains for quick serviceability
- Curbside control panel for ease of use
- Protective shutdown system to prevent damage
- Single-side serviceability for easy maintenance

*Atlas Copco*

This compressor is designed for cross mounting on service vehicles used for maintenance, road striping, and related activities. For easy mounting and dismounting from the carrier, the XAS 185 features two sets of forklift slots, one on each end, as well as a lifting bail.

- The most efficient air end in the compressor industry
- Easy access to filters and the oil separator tank
- Guaranteed CFM
- Interim Tier 4 electronic engine
- Compact design
- Control panel next to discharge valves for ease of use
- Large service doors

## Technical Specifications

Model Compressor	XAS 185 JDU7
Normal effective working pressure	100 PSI
Maximum unloading working pressure	125 PSI
Actual free air delivery	185 CFM
Cooling system (Air/Oil)	Air / oil
Compressor oil capacity	2.5 gallons
Engine	John Deere
Model number	4024TF281 IT4
Cooling system	Ethylene glycol mix w/SCA
Number of cylinders	4
Capacity of oil sump (approx)	8 quarts
Capacity of fuel tank	27 gallons
Speed-maximum loaded	2,750 RPM
Speed-unloaded	1,600 RPM
Horsepower	49 HP
Unit Dimensions	
Overall length	84in.
Overall height	57 in.
Overall width	34 in.
Weight dry	1,850 lbs.
Weight wet	2,060 lbs.

Danger: Compressed air should never be supplied as breathing air unless air is properly purified for breathing. Atlas Copco assumes no responsibility or liability related to the purchaser's/user's breathing air system.
